EDUCATIONAL TRAINING

Le Wagon Stockholm - Batch #612
Web Development
April 2021 / June 2021
9-week full-time intensive coding bootcamp learning HTML, CSS, Bootstrap, JavaScript ES6, SQL, git, GitHub, Heroku and Ruby on Rails. Projects completed during the course:

Locally www.locally.space
I pitched this project and in a team of 3 where I acted as Lead Developer we designed and implemented this web app, which is aimed at bringing locals and travellers together based on mutual interests. Built using Ruby on Rails, JS, HTML, CSS, Github, Figma and Heroku.

Rent a Boat https://rentaboat.herokuapp.com
In a team of 3 where I acted as Lead Developer we launched an app for renting boats on an Airbnb like site using HTML, CSS, JS, Ruby on Rails and Heroku.

Movie organizer https://movieorganizer.herokuapp.com
An app to organize movies in lists primarily built using Ruby on Rails, JS, HTML, CSS.
